DETAILED ACTION

1. The abstract of the disclosure is objected to because it is not on a separate sheet. Correction is required. See MPEP § 608.01(b).
2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claim 20 is rejected under 35 U.S.C. 102(b) as being anticipated by Stevens.

Stevens discloses the claimed method of deploying first and second frame assemblies, each having an attached canopy. The only recited structure accorded weight in the claim is the first and second frame and first and second canopy which are also recited in the method steps. Apparatus limitations such as the superstructure have been accorded no weight in this method claim.

4. Claims 1-19 and 23-27 are allowed.
